Codeforces: [Sliced Omelette](#) (Specialist) | LeetCode: [SlicedOmellete](#) (Knight)

EDUCATION

IIIT Naya Raipur

Aug. 2023 – May 2027

B.Tech in Electronics and Communication Engineering

CGPA: 7.85 / 10

- Relevant coursework: Data Structures & Algorithms, Object-Oriented Programming (C++/Java), Operating Systems, DBMS (transactions & isolation levels), Computer Networks (HTTP/HTTPS, TLS).

EXPERIENCE

Mahyco Grow

Jan. 2026 – Mar. 2026

Software Development Engineering Intern

Remote

- Owned a production **FastAPI** backend end-to-end — API design, **JWT** / **RBAC auth**, async **MongoDB** (Motor) persistence, deployment and monitoring.
- Designed low-latency upload/processing APIs for gigapixel GeoTIFF/JPG payloads; tile-based rasterio streaming kept memory bounded and cut analysis from **hours to under 5 min.**
- Hardened the request path via profiling, debugging and regression testing; raised precision **40%** with sliding-window chunking and global de-duplication (NMS) across tiles.
- Drove the full lifecycle from requirement gathering to deployment, keeping YOLOv8 localisation + a 3-class classifier behind clean service boundaries.

Shipd by Datacurve (YC-backed)

Feb. 2026 – Present

Machine Learning Analyst (Freelance)

Remote

- Ship reviewer-graded systems and ML tasks against strict correctness bars — each deliverable gated on validation checks, reproducible experiments and edge-case handling.
- Built retrieval/ranking workflows over **finance-style tabular data** (semantic overlap, numeric & period alignment, table-row relevance), with leakage-resistant feature audits.
- Debugged and optimised production-style CV pipelines — preprocessing, prediction cleanup, error analysis and output validation.

PROJECTS

PrithviNet — Distributed Data Pipeline & Live Analytics Engine

[Live Demo](#) | [GitHub](#)

- Built a distributed analytics backend ingesting **3 third-party APIs** (Overpass/OSM, Google AQI, Mapbox) into 7+ MongoDB collections for 4 role-based dashboards.
- Engineered a multi-stage **self-service query layer** compiling natural-language questions into live database aggregations across React, Node.js and FastAPI services.
- Designed compliance workflows for pollution heatmaps, spill modelling and Water Quality Index reporting, keeping aggregation queries responsive at scale.

Sentinel — YouTube Data Pipeline & LLM Analytics Platform

[GitHub](#)

- Built a YouTube analytics pipeline ingesting **100K+** video data points with Next.js SSR; cut latency **30%** via batching and optimised API calls.
- Made the integration fault-tolerant — **rate-limit backoff**, **retries**, **async failure handling** — and classified sentiment across 20K+ comments at ~80% accuracy.

NeuroLink — AI Dementia Companion App (National Hackathon Winner — IIIT Naya Raipur)

[GitHub](#)

- Shipped a Next.js family dashboard with medication-reminder APIs, **sub-10-second** caregiver-alert sync and encrypted **RBAC** healthcare data.
- Built the React Native + Expo companion app: on-device face-recognition people-matching, LLM chatbot, personalized memory-question generator and cognitive flashcards.

TECHNICAL SKILLS

Languages: C++, Python, C, TypeScript, JavaScript, SQL

Core CS: Data Structures & Algorithms, Object-Oriented Design, Operating Systems, DBMS (transactions, isolation levels), Computer Networks, concurrency & async

Backend & APIs: Python (FastAPI, Django, Django REST Framework, Flask), Node.js, REST API design, JWT, OAuth 2.0, RBAC

Data & Pipelines: PostgreSQL, MySQL, SQL, MongoDB (Motor), Redis, YouTube Data API, GeoTIFF/rasterio, HTTP clients

Infra & Tools: AWS (EC2, S3, RDS, Lambda), Docker, Linux, Git, Vercel

ML / LLM Systems: LangChain, LangGraph, LangSmith, RAG, AI Agents, LLM evals, OpenAI / Claude / Gemini, YOLOv8

ACHIEVEMENTS

- ICPC India 2024** — All India Rank **509** / **1,200+** teams; 3rd place at IIIT Naya Raipur regionals.
- Flipkart GRiD 8.0** — Semi-finalist in India's largest national engineering challenge (2026).
- 3× National Hackathon Winner** — Education for AI (Thinkplus/SkillU) ([Cert](#)); CodeUtsava 9.0 at NIT Raipur ([Cert](#)); Hack-a-Sol 2025 at IIIT NR ([Cert](#)).
- NPTEL Deep Learning** — IIT-run certification with proctored exam ([Cert](#)).
